

Research Participants Needed

Do you have a hormonal IUD?

Would you be willing to participate in a study about hormones and sexuality?

You could earn \$20

Researchers at the University of Arkansas are interested in studying the impact of hormone levels on sexual function

We are looking for:

Women

18-30 years of age

Currently have an IUD (Mirena, Liletta, Kyleena)

What will be asked of participants?

Participants will be asked to come to the HPER building to provide a blood sample and complete a survey once a week for 4 consecutive weeks.

Each visit should take less than one hour

Participation is confidential and your name will never be tied to the study results
