

INVITATION TO PARTICIPATE IN A RESEARCH STUDY ABOUT SMARTPHONE USE

Researchers at the University of Arkansas and the University of Arkansas for Medical Sciences are looking for people between the ages of 18-29 to participate in a research study about smartphone use and neck pain

To be eligible for this study, you must meet the following criteria:

- ✓ 18-29 years of age
- ✓ Own a touchscreen smartphone
- ✓ No previous history of neck injury, neck surgery, whiplash, concussion, chronic headaches/migraines, dizziness or fainting
- ✓ No past neck pain that required more than 3 days off from regular activities

You will be asked to come to the Exercise Science Research Center at the University of Arkansas on two occasions to have your posture, movement, and neck muscle activity monitored while using your smartphone for 30 minutes. Each visit will be about 2 hours.

You will receive compensation for your time.

If interested, please contact:
